

SJP NEM Net Energy Metering Product (NEM)	
Whom do I Contact for More Information:	<p>Mail: City of San Jacinto 595 San Jacinto Ave San Jacinto, CA 92583</p> <p>Phone: (951) 665-6812</p> <p>Email: CustomerService@SanJacintoPower.com</p> <p>Website: www.SanJacintoPower.com</p>
How do I enroll in SJP's Net Energy Metering?	<p>If you are already enrolled with Southern California Edison (SCE)'s Net Energy Metering program you do not have to do anything. Your account will automatically be enrolled in our SJP NEM program. If you are contemplating installing on-site solar, wind or other self-generation, your system installer can guide you on how to sign up for Net Energy Metering through SCE. Once you are signed up through SCE, you will be automatically enrolled in SJP NEM.</p>
How does the net energy metering program work?	<p>With the SJP NEM, you'll receive an energy credit for the power your system provides to the grid. At the close of each month we'll tally the amount of grid energy you've consumed and contributed. If what you've contributed is more than what you've consumed, we'll issue a credit. If you've used more than you've contributed, you'll be charged. Each October, on our regularly scheduled true up date, the kilowatt usage is evaluated. If your energy production exceeds your energy consumption, a rebate is issued based on the current per kWh rate. If we owe you, we'll cut you a check. Current rebate rates can be found on our website at: www.SanJacintoPower.com/rates</p>
Will the rate change over time?	<p>SJP is governed by the San Jacinto City Council. Every year, the City Council goes through a rate-setting process based on the projected energy costs for the coming year. This process is held at a public hearing during the City Council's regularly scheduled meeting dates. The public is invited to attend and participate.</p>
What other fees might I be charged?	<p>SCE charges SJP customers a Power Charge Indifference Adjustment (PCIA) calculated based on the number of kilowatt hours used each month. The PCIA is intended to ensure that SCE's remaining customers do not pay for</p>

	energy that had been acquired for SJP’s customers prior to their switch. The PCIA “vintage” for SJP customers is 2017, and the amount is determined by rate class.
How will I be billed?	SCE continues to bill for your monthly electricity usage. Your bill will look much as it has in the past. There will be two lines on the summary page, one for SCE and the second for SJP.
If I want to terminate service, what is the termination fee?	There is no termination fee should you decide to return to SCE for generation services. You will be subject to SCE’s current terms and conditions upon your return.
